

# BMC AMI Storage IAM Learning Track 1: Storage Managers

CRT

Certification

ILT

Instructor-led Classroom/Online

WBT

Web-based Training

ASP

Assisted Self Paced

## About the Product:

BMC AMI Storage IAM and BMC Storage IAM/PLEX are designed to maximize data storage capacity, reduce VSAM run time, improve CICS® and batch performance, and reduce overall CPU consumption. These solutions help your organization maximize performance and streamline storage administration.

## About the Training Target Group – Storage Managers, System

### Programmers, Performance Analysts, Developers Responsibilities:

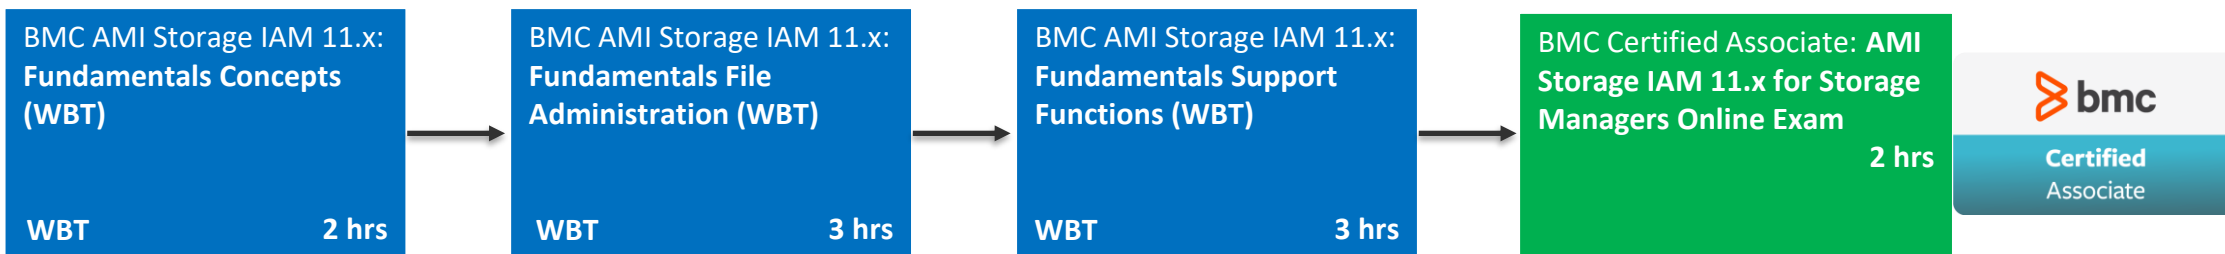

Managing storage performance; Performing journaling and recovery; Performing file administration; Loading and processing IAM datasets; Managing space; Performing support functions

**Recommended for:** Storage Managers, System Programmers, Performance Analysts, Developers

### Training applicable to product versions:

BMC AMI Storage IAM 11.0

Fundamentals IAM

# BMC AMI Storage IAM Learning Track 2: Storage Managers

CRT

Certification
